

ESI Funds for Health

Building knowledge & capacities

‘Research and Innovation in health’ Workshop

June 20-21, 2018
Breda, the Netherlands

The purpose of this workshop is to foster knowledge and experience exchange on the challenges facing research and innovation (R&I) in health and the life sciences and the role European Structural and Investment Funds (ESI Funds) can play in managing these challenges. The following issues will be discussed:

- Research and innovation in health - assessing needs and priorities for investments in R&I;
- The role of the ESI Funds in supporting these needs and priorities;
- Research and innovation in health - fostering synergies between different fund sources.

The workshop will be carried out in collaboration with the beneficiaries of the project i-4-1-health and feature this project supported by the European Regional Development Fund.

This workshop is part of a series of events organised by the ‘ESI Funds for Health’ project funded by the Health Programme of the EU (Jan 2017- Dec 2018) with the aim to:

- Gather knowledge on health investments by the ESI Funds across the EU;
- Build knowledge and capacities to support the implementation of the ESI Funds for health.
